

DETERMINATION OF EXEMPT STATUS

July 29, 2020

Dear Shwetak Patel:

On 7/29/2020, the University of Washington Human Subjects Division (HSD) reviewed the following application:

Type of Review:	Modification / Update
Title of Study:	Exercise Classification and Quantification Using Sonar Signal Analysis
Investigator:	Shwetak Patel
IRB ID:	MOD00007409
Funding:	None

Exempt Status

HSD determined that your proposed activity is human subjects research that continues to qualify for exempt status (Categories 2 and 101).

- This determination is valid for the duration of your research.
- This means that your research is exempt from the federal human subjects regulations, including the requirement for IRB approval and continuing review.
- **Depending on the nature of your study, you may need to obtain other approvals or permissions to conduct your research. For example, you might need to apply for access to data or specimens (e.g., to obtain UW student data). Or, you might need to obtain permission from facilities managers to approach possible subjects or conduct research procedures in the facilities (e.g., Seattle School District; the Harborview Emergency Department).**
- If you obtain federal funding or other support for this research, inform HSD immediately.

If you consider changes to the activities in the future and know that the changes will require IRB review (or you are not certain), you may request a review or new determination by submitting a Modification to this application. For information about what changes require a Modification, refer to the [GUIDANCE: Exempt Research](#).

Thank you for your commitment to ethical and responsible research. We wish you great success!

Sincerely,

Shawn Query, CIP
Senior Administrator, Committee B
